Miovision and GeoDigital both listed as part of the Deloitte Technology Fast 50

We are delighted that two Investeco portfolio companies were listed amongst the 50 fastest-growing technology companies in Canada. The annual program is based on annual revenue growth over a five year period. This year Miovision Technologies was #2, and GeoDigital was #31. Both are portfolio companies of the Investeco Private Equity Fund 3, L.P.

The following is a link to the Fast 50 list: <http://www.deloitte.com/assets/dcom-canada/local%20assets/images/infographics/technology-fast-50-winners/>
